INDEX TO PCG PUBLICATIONS

NEWSLETTERS AND JOURNALS Nos 1 - 116

Several members have in the past attemted to idex the various PCG publications, but they did not complete the task. Their index included authors, techniqes etc. These are available in the library in manuscript form.

An index to PCG Journals 1-100 and the special publications was published in Journal 101. This included just sites, apart from references to rescue call-outs and practices. An update was published in Journal 111, covering numbers 101 to 110. This is a compilation of these two, updated.

We cannot claim that all names are correct, particularly foreign sites. Mine titles are difficult to index, with changes of name and amalgamation or division of setts, so inconsistencies may appear.

The Newsletters and Journals, and Special Publications, are included. Various other publications, news sheets, rescue reports, etc. have not, but may be indexed in the future.

The publications can be referred to in the Plymouth Central Library Local Studies Department, and in the PCG library.
